

Resolution No. 10-03-05-02

A Resolution authorizing specific Village Property owners to participate in the DNR's Chronic Wasting Disease Eradication Hunt

Whereas, in March of 2003 the Village of Fontana on Geneva Lake's Police Department, with the permission of the Wisconsin Department of Natural Resources (DNR), dispatched a sickly deer within the Village limits; and,

Whereas, the deer carcass tested positive for Chronic Wasting Disease (CWD); and,

Whereas, the DNR desired to collect additional samples for the purpose of determining a presence of CWD in the deer population within the Village of Fontana limits; and,

Whereas, on November 20, 2003 the Village of Fontana adopted a resolution authorizing specific Village properties to participate in a scientific harvesting program and a number of samples were collected. One additional case of CWD was confirmed; and,

Whereas, in 2004 the DNR created disease eradication zones of which the Village of Fontana on Geneva Lake is part of, as indicated on the map hereby attached as "Exhibit A"; and,

Whereas, the DNR established a CWD management goal to reduce the deer herd to five deer or fewer per square mile to stop the disease transmission and eradicate the disease; and,

Now therefore be it resolved, that the Village of Fontana on Geneva Lake compiled a listing of the permitted parcels, authorized hunting agents, specified hunting regulations and hours, and other pertinent information pertaining to the DNR's eradication hunt, which is hereby attached to this resolution as the amended "Exhibit B".

Be it further resolved, that only the parcels listed on the amended "Exhibit B" shall be eligible to apply for a Landowner's permit with the DNR and the hunting shall be authorized only through January 2, 2006.

Be it further resolved, that this Resolution is to be effective upon adoption.

Approved and Adopted this 3rd day of October, 2005.

Village of Fontana on Geneva Lake
Board of Trustees

Thomas Whowell
Hunting Hours: Two Hours Immediately Following DNR Permissible Start Time
Two Hours Prior to DNR Permissible End Time
Weapon: Bow Hunting & Shot Gun

These are the **ONLY** authorized areas within the Village of Fontana.

Hunting Regulations

The authorized hunters are expected to follow the parameters listed below in addition to the 2005 Wisconsin Deer Hunting Regulations. In the event the special parameters are more restrictive than the DNR the hunters are expected to follow the more restrictive terms.

- Limited hours (see hunting hours listed under each property)
- All agents must carry a copy of their hunting permit signed by the landowner during the hunt.
- Bow hunting will continue through the gun hunting season.
- Hunting will terminate no later than January 3, 2006
- No hunting within 100 yards of a human occupied dwelling.
- If a wounded deer leaves the hunting zone the Fontana PD must be called in to track and dispose of deer. **Fontana PD 275-2135**
- Agents for the Village Property must secure the gates and post hunting signs during the hunting hours.
- All weapons must be secured in a case when hunters are leaving the hunting zones.
- No baiting of deer during the hunt
- No deer shall be harvested with a head shot.
- Deer heads must be returned to a collection site 18 hours following the harvest.

Head Collection Sites

Corners Inn Bar & Grill Contact: 724-5454
W9002 Hwy 11
Delavan, WI 53115

Bigfoot Beach State Park Contact:
1452 County H
Lake Geneva, WI 53147

Other Sampling Methods

The DNR is also collecting samples through car kill deer. If the Village is alerted to a car kill deer during normal business hours contact our **Department of Public Works** and they will pick up the carcass and process the deer for freezing. If the Village is alerted after normal business hours contact **Ronald Adams** and he will process the deer for freezing.

Department of Public Works, Craig Workman 275-3481 or 749-0339
Ronald Adams 749-0336

Remaining Carcass

The antlers and remaining carcass may be released to the driver of a car kill deer or the hunter, but by no means should be left by the side of the road or in the hunting location. In the event a car kill deer is processed at the accident scene all end trails must be properly disposed of and shall not remain on the roadside.
