April 24, 2020 Project Update

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

Construction on the storm sewer outfall and mechanical storm water quality structure to the east of Potawatomi Creek in the County Club Estates beach area were installed this week. Storm sewer installation will continue next week at the intersection of Shabbona Drive and S Lake Shore Drive and proceed east up the hill. Access to Glenwood Springs Gate 1 is expected to be closed 4/27 – 4/28. Water main work is proceeding in S Lake Shore Drive east of Walworth Avenue and will turn up Brickley Drive once they reach that location. S Lake Shore Drive between Shabbona Drive and Indian Hills Road as well as Brickley Drive will be closed to through traffic during active construction. Sanitary sewer rehabilitation work is also continuing throughout the project limits and may require temporary lane closures. Please follow all detours and construction signage.

We Energies is continuing to relay (replace) the existing gas main along S Lake Shore Drive and is proceeding from west to east. The gas line relay work is not a Village project. Other private utilities may be onsite during the project including electric, cable or telephone, however those utilities are not proposing any changes except for minor adjustments to relocate conflicting poles or lines.

Feel free to contact the Village at (262) 275-6136 with any questions.
