---

June 5, 2020 Project Update - **REVISED**

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

Road reconstruction began this week west of Walworth Avenue and is following the utilities to the east and then up Brickley. Curb and gutter installation is scheduled to begin late next week. Storm sewer work is continuing in S Lake Shore Drive east of Brickley Drive.

Water main installation will continue in S Lake Shore Drive east of Brickley Drive working towards Indian Hills Road. In addition, the Contractor is preparing to begin two water main borings east of Indian Hills Road. During water main installation Property Owners may experience times without water. The Village and its contractors will do everything possible to limit these disruptions and notify homeowners the evening before the occurrence. Water may appear cloudy for a short period of time after water service is restored. Allow water to run through a tub faucet or garden house until the water appears clear. Whenever possible, discharge this initial volume of water from a faucet BEFORE any filters or water softeners.

S Lake Shore Drive between Shabbona Drive and Indian Hills Road as well as Brickley Drive will remain closed to through traffic during this phase of construction. At times, those roadways will not be passible due to construction, even to local traffic. Contractor will communicate directly with property owners when they anticipate their driveways will be blocked due to construction. **Note that all side roads off S Lake Shore Drive between Indian Hills Road and Shabbona Drive, except for Brickley Drive, are private and are not open to public traffic.** Please follow all detours and construction signage. **On Tuesday, June 9<sup>th</sup> the intersection of S Lake Shore Drive and Indian Hills Road will be CLOSED during daytime hours due to proposed underground utility work. Property owners east of Indian Hills Road should plan on accessing their property from the East. Phase 2 construction will begin next week which extends from Indian Hills Road to the Abbey Springs entrance. The electronic message boards will be updated to reflect this.**

We Energies is continuing to relay (replace) the existing gas main along S Lake Shore Drive east of the entrance to Abbey Springs. The gas line relay work is not a Village project. Other private utilities may be onsite during the project including electric, cable or telephone, however those utilities are not proposing any changes except for minor adjustments to relocate conflicting poles or lines.

Feel free to contact the Village at (262) 275-6136 with any questions.
