August 28, 2020 Project Update

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

Phase 1 (S Lake Shore Drive between Shabbona Drive and Indian Hills Road & Brickley Drive): Phase 1 is substantially complete. Punchlist items and maintenance work will occasionally be required but we do not anticipate any future full closures. Once lawn areas are restored residents are encouraged to water their lawns to aid in a rapid and dense ground cover.

Phase 2 (S Lake Shore Drive between Indian Hills Road and the west driveways of the Abbey Springs Entrance): Phase 2 has been extended from the Harvard Club to the western driveways of the Abbey Springs Entrance. Concrete curb and gutter crews will begin next week followed by restoration and fine grading. Paving of Phase 2 is currently scheduled for the week of September 14th. Through traffic is currently not allowed within Phase 2. At times, those roadways may not be passible due to construction, even to local traffic. The contractor will communicate directly with property owners when they anticipate their driveways will be blocked due to construction and will work to maintain access to the maximum extent possible.

Phase 3 (S Lake Shore Drive between the entrance of Abbey Springs and approximately 1,700 feet west of Clear Sky Lodge): Underground public utility work for phase three is continuing. In and out access will be maintained, however **temporary delays should be anticipated.** During water main installation Property Owners may experience times without water. The Village and its contractors will do everything possible to limit these disruptions and notify homeowners the evening before the occurrence. Water may appear cloudy for a short period of time after water service is restored. Allow water to run through a tub faucet or garden house until the water appears clear. Whenever possible, discharge this initial volume of water from a faucet BEFORE any filters or water softeners.

Access in and out of Abbey Springs should continue to the east of the main entrance until further notice. A long-term closure (6 weeks) of S Lake Shore Drive east of the Abbey Springs entrance is scheduled to begin immediately following Labor Day to replace the Abbey Springs cart tunnel. At that time traffic in and out of Abbey Springs will switch from the east to the west. Please follow all detours and construction signage.

Note that the Village Contractor is not able to provide additional work for private property owners as part of the Village construction project. Feel free to contact the Village at (262) 275-6136 with any questions.
